President**

**Subject: Results of audit review performed at Monteva Aviation Group June 4<sup>th</sup>, 1999.**

**Introduction**

Please find attached a report of the audit review conducted at your facility June 4<sup>th</sup>, 1999.

Monteva Aviation Group is a Transport Canada approved parts distributor under Airworthiness Manual – Chapter 563 requirements (certificate number 33-95).

The objective of P&WC Service Center audits performed of Parts Distributors is to highlight both strengths and weaknesses of the quality systems, processes and to share expertise to introduce better business practices in order that the parts distributors and PWC can both benefit.

An opening debriefing was held on June 4, 1999 for introductions and to discuss scope of audit and audit agenda.

A final debriefing was given on June 4, 1999 to Monteva Aviation Group management to present and discuss final results.

**Summary**

The audit mainly focused on the quality system, with emphasis on parts history and traceability.

The results indicate Monteva Aviation Group is generally in good shape in regards to quality system. Further details can be found in the audit report. It should be noted Monteva Aviation Group strengths are their Quality records and Product identification and traceability elements.

Monteva Aviation Group management and personnel were very cooperative to provide the auditor with any documentation or information and not to mention forthcoming.

**Based on the satisfactory audit results, Monteva Aviation Group is recommended as an approved parts supplier for the P&WC Service Center network.**

Yours Truly,

George Fabrizio  
PWC S/C Quality Assurance Senior Auditor
